

| Citizen

A **Citizen** is also any player who's Primary Residence is located in Jurisdictional Land.

A player is still considered a **Citizen** until the end of the currently ongoing Tax Period after they have no Primary Residence in Jurisdictional Land.

| Citizen Rules

It is considered a Crime if a **Citizen** breaks a **Citizen Rule**.

| Requirement to Pay Taxes and Fines

Citizens are required to pay Taxes using the proper Taxpaying Process.

Citizens are also required to pay Fines using the correct process:

- If the Fine is to the Government then use the Taxpaying Process.
- If the Fine is to another Citizen then the fine must be delivered in the mailbox of the finer alongside the fine book. Fine books should be discarded via destruction (cactus, lava, fire) when they are completed.

| Staying in Prison for the Decided Term

Citizens cannot leave prison before they are provisioned to leave either by a Elected Official or the ending of their imprisonment term.

| Consistent Assistance with Public Assignments

Citizens are expected to occasionally assist (once every 2 Tax Period) with Public Assignments if there are any Public Assignments which are able to be completed.

| Loaning, Distribution, Private Re-allocation or Sale of (Products of) Privately or Governmentally Allocated Services or Facilities

Citizens may not loan, distribute, privately re-allocate or sell private or governmentally private services, facilities or products of services or facilities they have been delegated access to or allocated, where the following are defined as follows:

- a private service is a line of work which can only be accessed by some **Citizens** under the regulation of another **Citizen**, generally resulting in a product, but not always

- a *facility* is a system which allows enhancement or enrichment of a **Citizen** or their possessions
 - *loaning* is when a **Citizen** takes a payment for allowing an unapproved **Citizen** access to a service area or facility
 - *private re-allocation* is when a **Citizen** freely allows access of an unapproved **Citizen**--via negligence or accident--to a service area or facility
 - *sale* is when a **Citizen** takes a payment for the products attained via a service area or facility
 - *distribution* is when a **Citizen** freely releases products attained via a service area or facility into the hands of an unapproved **Citizen**--via negligence or accident. If a Property Owner negligently allows this to take place they are also included in responsibility for this Crime.

I Citizen Rights

I Right to Purchase Land

Citizens have the right to Purchase Land. **Citizens** must speak to an Elected Official to Purchase Land.

I Right to Trade

Citizens have the right to trade with each other.

I Right to Invoke Improper Signage Visibility

Citizens have the right to invoke their right of improper signage visibility to justify trespassing if the signage doesn't follow the signage visibility requirements. In this case, **Citizens** can Fine the Property Owner using the same format as a Property Owner's Right to Submit Fines for Trespassing Personal Private Property.

If the signage does meet proper signage visibility requirements then this right is no longer valid

This rule is not valid if the property is an Owned Property

I Right to be Issued a Primary Residence

A *primary residence* is the primary location that a **Citizen** resides; a **Citizen**'s home base; the location where a specific **Citizen** most often sleeps.

Citizens have the right to request a public primary residence if they do not have any

existing primary residence. This may occur if a **Citizen** is not a Property Owner or a member of a Shared Private Property.

Upon request, the Government must supply a Public Property residence which offers, at the minimum, shelter which has room to be entered, light in order to stop mobs from spawning, a bed which can be slept in and a mailbox.

The Government must supply this Property within 2 Minecraft days of the request being issued.

I Right to be Issued a Private Assignments Board

A *private assignments board* is a location which is used to display a list of Private Assignments for a particular Citizen.

By request, the Government must provide a Private Property of size X/Z7 by X/Z5 by Y3 in or within a 50 block square radius of the "Penton Public Nether Portal" which is untaxed and unpurchased owned by the requestor.

The Government has the right to revoke this Private Property if the Property Owner doesn't consistently meet the following requirements:

- The only thing contained in this Property is a board for listing Private Assignments.
- Tasks are listed using signs or lecterns.
- Projects are listed using lecterns.
- The Property must entirely be a Publicized Private Property.

I Right to Participate In and Create Loans

Two **Citizens** have the right to create loans, a type of Contract, with any monetary circumstances they agree on.

I Right to Vote Early and Remotely

1. **Citizens** have the right to vote early, within the last 2 tax periods before an upcoming Election.
2. **Citizens** have the right to vote without joining the game over a remote platform.

This right is to ensure that more opinions are heard even when availability of **Citizens** may be low.

I Right to Check Mailbox

A **Citizen** should check their mailbox regularly in order to ensure they aren't missing deadlines.
