

| Importing and Exporting

Importing and Exporting are the set of Fines that apply when goods, services or currency are traded, exchanged or donated between individuals who do not share the same [Citizen](#) status. An example of this would be a [Citizen](#) and an [Alien](#) making a trade. These interactions must follow [alien trade jurisdiction](#).

| Rates

When **Importing and Exporting** trades, exchanges or donations are completing a 50% fee, ceilinged is added on top of the original exchange value. An exact value for abstract trades, exchanges or donations is to be determined by the [elected official reviewer of the interaction](#). All additional value of the trade, exchange or donation is to be attributed and sent for [Governmental possession](#).
