

| Treasure

The **Treasure** is the sum of money and all other assets that the Government holds. This money is obtained primarily from Taxes and is primarily spent on Public Assignments.

The **Treasure** is held by the current Treasurer.

| Treasurer

The **Treasurer** is a singular Elected Official who holds the **Treasure**.

The **Treasurer** cannot reveal how much currency the **Treasure** has in it. It is considered a Crime to do so. However, the **Treasurer** can discuss and reveal non-currency assets within the **Treasure**.

| Rights of the Treasurer

The following details the rights the **Treasurer** holds over other Elected Officials.

| Right to Access the Treasure

The **Treasurer** withholds exclusive and sole access to the **Treasure**. If the **Treasurer** allows anyone other than themselves access to the **Treasure** they will be immediately removed from office and are subject to Criminal Punishment.

| Right to Issue Bonds

The **Treasurer** withholds the exclusive and sole right to issue Bonds. Since the **Treasurer** is the only individual who knows the currency amount in the **Treasure** they are responsible for issuing Bonds appropriately.

| Right to Sell Treasure Assets

The **Treasurer** may set up sales for assets within the **Treasure** which are *not* currency. Sale of assets must be public; asset sale cannot be restricted to only certain Citizens. Sale of assets from the **Treasure** must match or undercut the current market value of the asset.

| Right to Issue and Sign Tax Books

The **Treasurer** must write and sign tax books correctly through the Taxes process and mail them to Citizens. Mailing can be hired in or allocated to other present Elected Officials.

I Right to Self Approve Public Projects

The **Treasurer** can self approve Public Projects without the approval of a Governmental Meeting. Additionally, Public Projects cannot be assigned without giving at least 1 tax period of notice before the **Treasurer** can participate in completion of the Project or until another Citizen has already partaken in completion of the Project.

I Right to Contract, Collaborate and Compensate Construction Contractors

The **Treasurer** has the ability to contract *construction contractors* and is required to compensate them for their work at a *satisfactory rate of currency payment*.

- A *construction contractor* is an individual who is tasked with using their private assets alongside assets from the **Treasure** to complete a construction job which may not have a set payment value until the construction is complete.
- The *satisfactory rate of currency payment* is determined as the value(s) of currency negotiated for with the **Treasurer** and involved construction contractors which would satisfy the requests of each involved construction contractor. If an agreement on the compensatory value cannot be concluded on then a Governmental Meeting must be held where Elected Officials determine the value(s).

I Right to Collect Taxes and Fines

The **Treasurer** can collect Taxes and Fines from Citizens and themselves which must go into the **Treasure**. If the **Treasurer** is found to be mishandling tax or fine collection they will be immediately removed from office and are subject to Criminal Punishment. The collection of Taxes and Fines from Citizens can be hired in or allocated to other present Elected Officials as long as the Taxes and Fines end up at the **Treasurer** so can they put them into the **Treasure**.

I Right to Accept and Make Donations to the Treasure

The **Treasurer** can accept donations from other Citizens as well as make their own donations to the **Treasure**. Mis-allocating donations (not moving all the donation money into the **Treasure**) is considered a Crime.

I Rules of the Treasurer

The following details the rules the **Treasurer** must abide by. It is considered a Crime for any of the following to be broken.

I Siphoning or Moving Assets

The **Treasurer** must not siphon or move assets from the **Treasure**. This includes but is not limited to creating public sales which are immediately bought by a Citizen intending to collect assets from the **Treasure** or creating sales for prices that are above the market value and cause only the **Treasurer** to be able to buy the assets.

By extension, the **Treasurer** cannot perform self-sales; the **Treasurer** may not buy items from the **Treasure** and they may not intentionally engage with any indirect form of the same action, such as selling items from the **Treasure** to a friend and then buying them from their friend.

I Using the Treasure

The **Treasurer** may not using assets and currency from the **Treasure** for anything other than Governmental purposes. This includes but is not limited to using funds for private purposes or using assets to construct a private construction.
